

# Taiko Series K16

Lighted Pushbutton Switches

The Taiko Series K16 is a quality line of lighted pushbutton switches suitable for a wide variety of applications. They're available in three shapes — round, square and rectangular — and in 1, 2, 3 or 4-pole configurations. Taiko switches use either incandescent or LED lamps, and are designed to fit a 5/8" round hole to eliminate the need for costly panel punches. Either lamp design will provide maximum luminosity. Matching momentary maintained and indicator units are available. Custom legends are available, too, engraved either on the lens cap or diffuser insert.

## Designed and built for reliability.

All Series K16 switches are made for long life and reliability. They feature double-make/double-break contacts, solder lug terminals and independent lamp terminals. When necessary, the lamp for any K16 switch can be easily replaced from the front panel. All K16 switches are rated 5A 250VAC.

## Basic Unit

Lens & Lamp Not Included

- K16-R0X Indicator
- K16-R1X Momentary — One Pole
- K16-R2X Momentary — Two Pole
- K16-R3X Momentary — Three Pole
- K16-R4X Momentary — Four Pole
- K16-R1LX Maintained — One Pole
- K16-R2LX Maintained — Two Pole
- K16-R3LX Maintained — Three Pole
- K16-R4LX Maintained — Four Pole

**Rectangular (R)**  
18 x 24 mm

## Basic Unit

Lens & Lamp Not Included

- K16-C0X Indicator
- K16-C1X Momentary — One Pole
- K16-C2X Momentary — Two Pole
- K16-C3X Momentary — Three Pole
- K16-C4X Momentary — Four Pole
- K16-C1LX Maintained — One Pole
- K16-C2LX Maintained — Two Pole
- K16-C3LX Maintained — Three Pole
- K16-C4LX Maintained — Four Pole

**Round (C)**  
18 mm

## Basic Unit

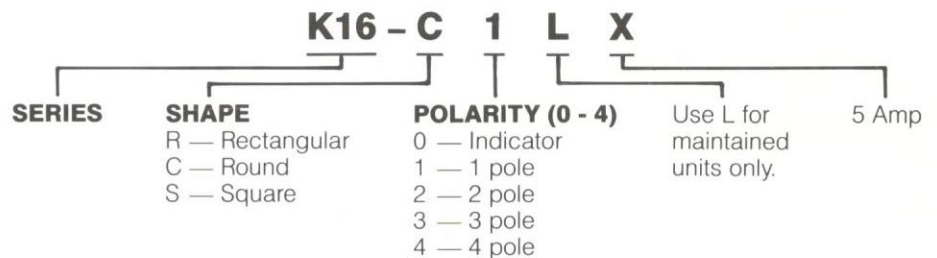

Lens & Lamp Not Included

- K16-S0X Indicator
- K16-S1X Momentary — One Pole
- K16-S2X Momentary — Two Pole
- K16-S3X Momentary — Three Pole
- K16-S4X Momentary — Four Pole
- K16-S1LX Maintained — One Pole
- K16-S2LX Maintained — Two Pole
- K16-S3LX Maintained — Three Pole
- K16-S4LX Maintained — Four Pole

**Square (S)**  
18 x 18 mm

## Ordering Information

**K16 C 1 L X** — Switch, Round, 1 pole, Maintained, 5 amp
